Dear Wayne:

On behalf of our United Way, please accept our congratulations on the 75<sup>th</sup> anniversary year of your local.

The work of your local in our community over the past 75 years has been impressive. We are aware of many organizations, including our own, that have benefitted from your support and resources. There have been some great stories of members contributing their time and skills towards many projects around the region. As well, members rallying around particular causes in the community when situations have been dire for some folks. Some great work has been accomplished by CAW Local 199.

The history of your local is indeed rich in its involvement in our community. Please convey our thanks and congratulations to everyone as you mark this significant anniversary.

Sincerely,
